

```
1 package com.student.studentmanagement;
2
3 import org.springframework.boot.SpringApplication;
4 import org.springframework.boot.autoconfigure.
  SpringApplication;
5
6 @SpringBootApplication
7 public class StudentmanagementApplication {
8
9     public static void main(String[] args) {
10         SpringApplication.run(
11             StudentmanagementApplication.class, args);
12     }
13 }
14
```
